

## ALL NEW IN 2018

### Midwest Tradition®

### Midwest Tradition® Pro

**#1**  
SELLING BRAND  
IN AMERICA\*

#### UPGRADED POWER & SOUND WITH TWICE THE WARRANTY OF CLASSIC TRADITION®

Fixed backend models deliver up to 25 watts of power — 50% more than previous Tradition® generations.

Ceramic bearing set reduces noise and makes possible a 1-year warranty — twice that of classic Tradition®.

New coupler options with multi-port water spray.

Pro versions have all new solid glass fiber optics.

Improved lever chuck option designed for easy bur changes. Lever rotates 360°.

Choose:  
Fiber Optic or Non-Fiber Optic  
Push Button or Lever Chuck  
Coupler or Fixed Backend

\*Based on SDM reported unit sales for Tradition brands in 2017.

The most substantial performance upgrade in 30 years, the new Tradition® and Tradition® Pro feature a new rotor and ceramic bearing set that provide significant power upgrades without requiring additional air pressure. This makes integrating into your current inventory of handpieces easier than ever. All new solid glass fiber optics are designed to resist yellowing and improve light transmission. An improved lever chuck version had been completely redesigned for ease of operation and long-term safety.

### Two powerful connection options

Choose from the 25-watt Fixed Backend or the 20-watt Coupler version to get the power and convenience that is right for you.

### It's time to upgrade your old Traditions — the next generation is here!
