

Dentsply Sirona announces new sustainability strategy. *Beyond. Taking Action for a Brighter World*

Press Contact

As a global leader in oral health, Dentsply Sirona is committed to drive change towards sustainable dentistry. Demonstrating this commitment, Dentsply Sirona announces sustainability goals, publishes its inaugural sustainability report and new dedicated hub on its website, outlining its strategy and 2020 performance.

Charlotte, September 23, 2021. Dentsply Sirona announced today its updated sustainability strategy, the release of its inaugural sustainability report, and [new sustainability hub on its website](#). Dentsply Sirona's disclosure is aligned with the guidelines from the Sustainability Accounting Standards Board (SASB) and the Task Force for Climate-related Financial Disclosures (TCFD).

"Sustainability is fundamental to our mission and vision. We strive to create long term value for all our stakeholders by supporting our customers to provide world-class dental care, while integrating sustainability and lifecycle thinking into everything we do," **said Jorge M. Gomez, Chief Financial Officer, Dentsply Sirona and chair of the Dentsply Sirona Environmental, Social and Governance (ESG) Committee.**

Aligned with 10 UN Sustainable Development Goals (UNSDGs), Dentsply Sirona's sustainability strategy focuses on three strategic pillars: "**Healthy Planet**", which strives to mitigate the environmental impact of our operations; "**Healthy Smiles**", which focuses on improving oral health quality and access globally, supporting our customers and fostering a healthy company culture; and, "**Healthy Business**", which ensures our business is built via responsible and transparent practices and the effective integration of sustainability principles across all aspects of our business.

2020 sustainability highlights and the next milestones:

Healthy Planet highlights:

- Established a robust baseline for Scopes 1 and 2 greenhouse gas (GHG) emissions, and implemented a range of on-site emissions reduction initiatives
- Set out to reduce Scopes 1 and 2 GHG Emissions Reduction \geq 15% by 2025, and to achieve net zero carbon emissions (scopes 1-3) by 2050
