The Dentsply Sirona Academy

Facility hire brochure

Welcome

At Dentsply Sirona, we are dedicated to empowering dental professionals through world-class learning programs and hands-on training. Our Academy provides a state-of-the-art education centre, featuring three meeting rooms and a fully equipped Clinical Skills Room designed to enhance practical learning experiences.

Our Mission

We are focused on empowering dental professionals to provide better, safer, faster dental care. We work with them to envision what's possible, then provide innovative solutions to achieve it. Through education and support, we help advance each procedure, ensuring these benefits are fully realised.

Click the images below to watch our videos where you will see our facilities and gain a better understanding of how we support dental training academies across the UK and Ireland:

Welcome to your next step in your professional growth.

Break-out area

When you book our facility, we offer a range of convenient on-site catering options to enhance your experience. We can take care of any dietary requirements and liaise with local suppliers on your behalf to take the hassle out of your day allowing you to focus on your education.

- **Nespresso coffee machine** – 2 coffee machines available to you in the showroom and in the break-out room to enjoy at your convenience.
- **Cold refreshments** – A selection of chilled drinks available throughout your event.
- **Sweet treats** – Biscuits and sweet treats will be provided to indulge in throughout your day.
- **Nearby catering options** – We work with various catering companies offering both hot meal services and cold buffet options to suit your needs. Some local catering options are listed below for you, click them to be taken to their webpage. These will be at an additional cost to your booking.
 - [The Corporate Chef](#)
 - [Surrey Catering](#)
 - [The Lunch People](#)
 - [Bla Bla Café](#)

Showroom

Step into our showroom and step into the future of dentistry - where innovation meets expertise. In our showroom, amongst other innovations you will find:

Digital solutions:

- **Primescan®** is your perfect starting point into digital dentistry. The scanner impresses clinicians and lab technicians with extremely high performance. While easy to use, the scanner provides you with the flexibility to define your individual workflows.
- **Primescan® 2**: The first cloud-native intraoral scanning solution. Our new wireless intraoral scanner is simple and versatile, easily integrating into your practice's existing setup to help you grow your practice and deliver exceptional patient care.
- **CEREC® Primemill** utilises state-of-the-art technology and CAM strategies to produce premium chairside restorations easier, faster, and more precisely. With a broad range of material options from Dentsply Sirona and other validated partners, the treatment of multiple indications is possible.
- **CEREC® SpeedFire** is the smallest and fastest sintering furnace on the market and can typically sinter a crown in approximately 14 minutes. The advantages of full-contour zirconia means can also be used for chairside treatment.

Lab workflow:

- **InLab Profire** sintering furnace combines proven process technology and convenient operation for more process reliability and reproducible sintering results in the dental laboratory.
- **InEos X5** scanner ensures high accuracy for all digitisation work of interest to the dental technician. The scanner allows you to make scans for nearly all indications and is your lab specialist for every digitisation task. The open scanner combines simple operation with object-specific scanning strategies for complete freedom of application.
- **InLab MC X5** is a universal 5-axis production unit for wet and dry production of blocks and discs. It was designed to meet dental requirements in labs and focus on economic and effective production processes.

Primeprint® | Dental 3D Printing System:

- 3D printing is now here and ready for demonstrating how clean cut the digital process is, without the worry of handling harsh chemicals. Primeprint is a highly automated, end-to-end, medical grade 3D printing system for dentists and dental technicians who want to expand their treatment or service offerings. This smart hardware and software solution is optimized for dental applications and can run the entire printing process, including post-processing.

Dentsply Sirona extraoral X-ray devices:

- **Axeos®** is a 2D/3D specialist system with a large volume and high image quality for practices with a broad treatment offering. Developed together with dentists and clinicians to provide excellent image quality and tailor-made 3D volume sizes, the dental imaging device is fully optimised for enhanced patient comfort.
- **Orthophos S** can be used as a pure 2D device or including a 3D module. Its CsI Plus sensor with autofocus function ensures clear images, even in anatomically difficult cases. The automatic patient positioning together with the patented occlusal bite block enables an easy and timesaving patient positioning.
- **Orthophos E** 2D X-ray unit provides a smooth entrance into the world of digital imaging. Thanks to CsI sensor technology and its easy-to-use interface, you are ensured reliable diagnostics every time. The cephalometric option also makes the Orthophos E a reliable partner for orthodontics.

We take great pride in our fully equipped showroom and Academy, designed to provide hands-on experience with the latest innovations in dental technology. Having our showroom available to you when booking a space within our Academy provides the ideal environment for professional training and development and getting the most out of your learning. We can offer you a unique opportunity to explore cutting-edge equipment, compare solutions, and gain valuable insights into the future of dentistry helping you make informed decisions with confidence.

Whether you're upgrading your practice, discovering new advancements, or investing in continued education, our showroom and Academy ensure you have the knowledge, tools, and support to succeed.

Experience the future of dentistry!

Book the Academy

The Academy is now open for bookings and with limited availability, we highly recommend securing your place as soon as possible to avoid disappointment.
