

## ‘Dentosept S donation’ program in China

With the COVID-19 epidemic outbreak, infection control is becoming paramount. As the situation in China is getting better and businesses are gradually coming back, more and more dental hospitals and clinics open up again.

To help customers prepare for their sanitation, especially for the treatment centers hygiene, the Dentsply Sirona China team initiated a ‘Dentosept S donation’ program in mid-March 2020. The 1st batch of 1,300 bottles of Dentosept S have been delivered nationwide to existing customers who have DS treatment centers with sanitation function (both in public and private dental care). To avoid face-to-face meetings, the donations were done via express delivery service directly to the customers’ doors. This special giveaway of Dentosept S in China was warmly welcomed by customers since it relieves their hygiene demands under such severe circumstances.

In line with the donation, the DS China team also provided a tip for patient education: A DS duck sticker can be pasted on to the water unit stating this unit is carefully under hygiene care. This assures patients to receive dental treatment in this clinic.

Dentsply Sirona’s mission is to empower dental professionals all over the world to provide millions of patients with better dental care and make people smile. Through programs like this Dentsply Sirona supports customers to be able to keep up their work even in challenging times.
