

The Benefits of Being X

In-Ovation X brackets are the latest in orthodontic technology. The tiny brackets are self-ligating, so they work faster than traditional braces and with fewer appointments.

- Low-Profile: Thin bracket means less to notice
- Smooth Moves: Contoured edges keep it comfortable
- It's Your Time: Self-ligating for faster treatment
- Don't Get Tied Down:
 - Color ties can degrade quickly and derail your treatment
 - Metal ties can provide discomfort when tightened

"I love my In-Ovation braces cause I know they'll make my teeth really straight."

"My In-Ovation brackets have been very comfortable to wear. I smile a lot, I love it."

"All of my friends who had braces told me they were in excruciating pain...and I didn't really have that which is pretty awesome."

In-Ovation® X Give Your Smile the X Factor!

Your Time is Now

Congratulations on your big decision! When you get braces, you're getting more than straight teeth. You're getting the confidence that comes from having a great smile plus all of the oral health benefits your doctor has told you about. But most of all, you're getting the opportunity to embrace a new version of you!

Reduced Chairtime

Easy-open, easy-close clip can shorten your appointment by up to 50%.

Fewer Total Office Visits

Up to 40%* fewer appointments than traditional brackets with ties.

Easy to Keep Clean

Simple clip design eliminates food traps and doesn't hold bacteria like elastic ties.

Comfort

Free-sliding technology eliminates metal ties while the low-profile design reduces irritation.

Benefits of the New You

- Social Confidence
- Healthier Mouth
- Cleaner Teeth
- Improved Chewing
- The Smile You Deserve
- American Innovation – Made and manufactured entirely in the USA

Embracing Your Braces

- Keeping your braces clean is the best way to avoid problems. Brush after every meal and floss at least once a day.
- Avoid sticky and chewy foods like gum, caramel, taffy and hard candies. Cut apples before you eat them and trade your bagel in for whole wheat toast.
- Don't panic! If you have any questions or something unexpected happens, just call your doctor as soon as possible. Most offices leave open spots in their schedule for an emergency.
