## MicroArch® PLUS

A Little Something  
to Smile About

## Your MicroArch® PLUS Advantage

When it comes to expressing yourself, nothing can compete with the confidence that comes from having a smile you love! MicroArch® PLUS is the smallest bracket we manufacture, meaning you can smile with confidence during and after treatment.

- Just like regular braces but in a smaller package
- Ideal esthetic treatment option
- Low-profile design, rounded edges and smooth finish

**PRO TIP:** Give yourself a little more time than you think you'll need to clean your braces the first few times. It just takes a few times to get the hang of it.

## Comfort PLUS Confidence

MicroArch PLUS braces give you more than just a picture-worthy smile. They also give you a wealth of oral health benefits including healthier teeth and gums, easier cleanings and improved overall health. Properly aligned teeth are easier to brush and floss, helping prevent embarrassing bad breath.

## Keeping Your New Braces Clean

Make sure you brush after every meal and floss at least once a day. Checking the mirror after brushing to make sure you didn't miss anything is a good idea too. Of course you'll need to avoid sticky and chewy foods like gum, caramel and hard candies. But when you get your braces off you'll realize it's all been worth it.

**PRO TIP:** It can take a few days to get used to how your braces feel. Try smiling in the mirror a few times once you get home. This can give you the confidence to laugh and smile just as you always did!

## Go Color Crazy

Ask your orthodontist about personalizing your treatment with colored ties. You can go big and bold when you want to, get matching colors with your best friend or opt for something that fits your mood. They're your braces, and it's your smile, so make it whatever you want!
